### THE CHINESE QUESTION.

Congressman Horace Davis completed arrangements for his family to remain East this Summer, will leave Washington to-day for San Francisco. He considers the outlook for continued rapid progress in the movement to restrict Chinese immigration highly satisfactory, and feels not only sanguine, but absolutely confident, that final legislative action of the desired character will be taken by Congress next Winter. He agrees with Senator Sargent that it would be a waste of time for the State Department to negotiate for the insertion of a restrictive clause in the treaty, as any such treaty stipulation would still have to be supplemented by action on the part of Congress to provide penalties, etc., for its enforcement, and he is of the opinion that diplomatic negotiations for any amendment of the Burlingame treaty should be therefore directed toward reducing it to a purely commercial basis.

Davis also remarks, however, that the way will be effectually paved for the passage of the restrictive bill already agreed upon by the House Committee, without negotiating or ratifying any formal amendments to the treaty, if the diplomatic correspondence be so conducted as to elicit from the Chinese Government an expression of willingness or consent for restrictive legislative action. Such an expression, he believes, can readily be obtained, especially in view of the fact that both Houses of Congress have already unanimously placed themselves on record as in favor of restricting Mongolian immigration, and are likely to take action in accordance with their desires and their constitutional power whether the Emperor does or does not avail himself of the opportunity cursorily afforded for his formal consent. The whole subject is now under careful consideration by our State Department, and unless it shall presently prove true that a Chinese Ambassador is coming to Washington, full instructions will soon be prepared for the guidance of our Minister or Charge d'affaires at Pekin in the inauguration and conduct of all necessary representations.

### ABOUT ROOP.

The Carson Appeal has the annexed historical sketch:

When the Territory of Nevada was first mapped out, Roop county was made a part of our physical and political geography. But a period of nearly seventeen years has passed away, and Roop is Roop only in name and "for judicial purposes."

Meantime Nevada Territory has become a State of the Union, and many is the county which has been born and organized and set up in business. Lander, one of the original counties, has been the prolific mother of at least three of these new ones. White Pine was taken from its loins; and she also contributed to the formation of Lincoln and Eureka and Elko. As to the earlier history of Roop the compiled statutes furnish us the following:

4057. See. 7. There shall be a county, to be known as Lake county, to include that part of the State within the boundaries described as follows: Beginning at the northwest corner of Washoe county, and running easterly along the northern boundary of said county to the mouth of the Truckee river; thence, due east to the summit of the first range of mountains east of said river; thence in a northerly direction, along said range, and the main granite range of mountains, to the Oregon line; thence west along said line, to the summit of the Sierras; thence south along said summit to the place of beginning.

And this "Lake" county is identical with Roop, and no less shadowy.

### U. S. COINAGE FOR 1877-78.

The coinage at the three United States for the fiscal year ending June 30, 1878, was as follows:

Philadelphia Mint .....	\$22,731,741
San Francisco Mint .....	64,707,900
Carson Mint .....	5,479,680
Total .....	\$91,118,921

The descriptions embraced in the foregoing table are annexed:

Gold—Trade Dollars .....	\$1,386,018
Standard Dollars .....	8,700,620
Subsidary Silver .....	8,819,315-28,317,925
Minor Coin .....	30,676

Total .....

It will be noticed that nearly 68 per cent. of the total coinage for the year was executed at the mint in this city. Of the trade dollars, \$8,582,000 was coined here, and \$410,000 at Carson. The standard dollars were coined as follows:

Philadelphia .....	\$4,934,500
San Francisco .....	2,052,000
Carson .....	1,114,000

Total .....

\$8,690,500

Work on these coins was commenced at Philadelphia about March 1st, and at San Francisco and Carson April 17th. The outturn of coin last year was the largest in the history of the country, being over \$8,000,000 in excess of the previous year, which was the heaviest up to that time. Since the establishment of the first mint in 1799, the total coinage has been as follows:

Gold .....	\$1,035,930,115
Silver .....	297,190,116
Minor .....	12,915,300

Total, 68 years .....

\$1,286,025,511

For the past five years the mints have averaged over \$60,000,000 per annum, against \$28,000,000 per annum for the previous five years.—*Bulletin.*

SENATOR THURMAN voices a general apprehension in his party when he says that the Democrats will have to work in order to win this Fall, as the Congressional elections will bring out a large vote. There are evidences in plenty of this. The people are more interested in the Congressional elections than they have been for years, and for very good reasons. They have had abundant opportunity to see the amount of evil a Democratic Congress is capable of when it has possession of the House alone. Its fears of what might happen with a Senate also in their possession are of the liveliest kind.

THE Sacramento Bee gives the subjoined left-handed notice to a somewhat notorious lecturer: Professor Gunning authoritatively declared that the Comstock lode was exhausted, and the miners immediately went to work and found an increased supply of ore. The miners have no respect for these omniscient "scientists"—they should have ceased work immediately when the oracle spoke. Gunning is a fine amusement for sportsmen, but it is not identical with science.

## THE DAILY JOURNAL

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State. It is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL  
Has a combined circulation larger than that of any other journal of Nevada, excepting those of the Comstock.

## NEWS OF THE MORNING.

John Jones, Georgia's late Treasurer, is short \$253,000 in his accounts.

Chen Lam Pin, Chinese Ambassador, and suite will arrive on the City of Tokio on the 18th.

Mr. Baring, of the British Legation, took possession of Cyprus yesterday in the name of Great Britain.

Potter again writes Secretary Sherman that he will not call witnesses to prove intimidation in Louisiana during the election of 1876.

Jasper McDonald sues H. A. Fox and Pat Connolly, for \$50,000 for defamation of character in the Day Mining Co. investigation.

Peter Daley has been acquitted and discharged from custody in Virginia City. He killed J. W. Fletcher in a family feud a few days ago.

There was no rioting in Montreal after all; the Orangemen decided not to parade, and this action with the prompt action of the police prevented any trouble.

A 600 gallon tank of water fell down the Ward shaft in Virginia City yesterday a distance of 1350 feet. Seven men were working directly under it, but none were killed.

## CHIEF NACHES IN SAN FRANCISCO.

Chief Naches, son of old Winnemucca, with an interpreter and several Piute chiefs, arrived in San Francisco Wednesday evening. A *Call* reporter interviewed the party relative to the present Indian disturbances. Naches attributes the outbreak to the action of the authorities at Fort Hall reservation about a year ago, at which time a white man was killed by an Indian, who was captured and placed in confinement, but subsequently escaped. The authorities at Fort Hall, in consequence of the murder, disarmed the Indians on the reservation. This caused much ill-feeling among the Indians, and during the winter the project of an outbreak was discussed by them with the result as known. Chief Naches says that Chief Oilz is in command of the hostiles, but that at present he is suffering from severe wounds. Jerry Long, the interpreter, states that the intention of the Indians is to gather to their standard all the tribes of Eastern Oregon and Washington Territory, and then return over the route previously taken and drive out the whites and friendly Indians from Southern Idaho and the adjacent region.

Tax Czar of Russia is said to have awaited the approach of the 21st of last April with superstitious anxiety, that being his sixtieth birthday, which he feared he would not survive. No Houmanoff before him ever attained the age of sixty, and it is a tradition that none ever would. A little over a year ago the Grand Duchess Helene died shortly before completing her sixtieth year—a circumstance that looked, to the Czar, like the fulfillment of a prophecy, and plunged him into a deep despondency. Since the midnight hour of April 21 he is like a new man, and displays a kindness and gentleness that has been strange to him.

SMALL FARMS.—The Sacramento Bee cites an instance to show how small farming can be made profitable. The Bee knows a man within two miles of that city who owns 160 acres, and who on that land supports a family of seven and puts in bank every year \$1,000 as clear profit. He raises chickens, turkeys and vegetables, and sows much of his land in wheat and buckwheat, and eats for poultry feed. The chickens are cared for by the young children, and a dog herds the turkeys. This man has a good wagon and several horses, and lives as comfortable as any rancher who owns several thousand acres.

The annual meeting of the Overman Mining Company has resulted in the retention of the old Board.

## COUNTY EXPENSES.

## MURDER AT TYBO.

Washoe county pays the District Attorney \$1,000 per year; the Treasurer, \$1,200; the Auditor, \$600; the Commissioners, \$1,800; the District Judge, \$2,100; the County Superintendent of Schools, \$300; the County Physician, \$600, making a total of \$7,600 as actual cash paid out for salaries. Besides this most of the salaried officers receive fees. The Treasurer gets about \$1,000; the Auditor, \$1,200; the District Attorney, \$800. The Clerk, Sheriff, Assessor, Coroner and Justices and Constables do not receive any salary; nothing but fees, but we estimate their cost to the county at the following figures: Clerk, \$4,000; Sheriff, \$6,000; Assessor, \$3,500; Justices and Constables, \$5,000; Coroner, \$250; a total of \$18,750, and a grand total for the officers of \$29,350. Nearly \$30,000 a year paid out for work that any man would be glad to take a contract to perform for \$15,000.

Not that it can be done by contract, but the statement shows that under the law as it stands the expenses of the county government in this single respect are expensive, and it would be a nice idea to have a reduction made somewhere, and there are three or four places where it could easily be done. Besides all this we have our Poor Farm, at \$3,000 per year; jury fees amounting to nearly \$10,000; expense of boarding prisoners, and the other incidentals to be added up, which will swell the amount \$20,000 more, and if we happen to have half a dozen bad criminal cases, the grand total would be rather astonishing. There is food for thought in this exhibit.

**BUTLER AND THE NATIONALS.**—The New York *Tribune*, commenting upon Ben Butler's attempt to seize the leadership of the Nationals, says: The new movement has been thus far engineered by men who do not propose to abdicate their leadership in favor of Butler. They are enticing recruits from the ranks, and not Brigadier-Generals to command the troops. Butler's transfer of himself to the new party is chiefly remarkable for its prompt effect upon all—the joy of the Republicans at getting well rid of him, the satisfaction of the Democracy at escaping him, and the embarrassment of the Abolitionists at having him pitched headlong into their camp. The public generally look upon the performance very much as the old woman, who making her first railroad trip did at the collision. Picking herself out of the ruins, she said, "Well, the thing seems to have lit."

**MAJOR T. M. HARDWICK.**—Major T. M. Hardwick, delegate-elect to the Constitutional Convention from the Assembly District of Merced and Mariposa counties, died on Monday at his residence in Quartzville.
